

Carmaster

economical

Australian made

user friendly

Protec Carmaster range is designed for general refinish and highly versatile to suit varying application conditions.

- Value-for money
- High durability
- Australian-made
- User-friendly
- Dependable performance

The economical and effective refinish solution

When the situation calls for refinish products with the performance, dependability and value-for-money to get the job done without fuss, the Protec Carmaster range has the answers. Designed for general refinish work, this versatile selection of products is user-friendly and straight forward to work with, yet offers the flexibility you need to make adjustments to suit varying application conditions.

For over 30 years Protec has proudly offered Australian-made coatings products that deliver exceptional value for money and Carmaster is typical of the company's unmatched combination of 'Paint, Value and Support'. That means this high-value range can be used with confidence thanks to well-proven product formulations which were specifically developed and tested locally, to suit the needs of local users and the harsh climatic conditions (Australia has one of the highest UV ratings in the world!).

Features and benefits

- Exceptional value-for-money alternative
- High durability
- Consistent, dependable performance
- Australian-made for local conditions
- User-friendly selection of primers
- Versatile clearcoat range
- No fuss – easy to mix and use
- Protec backup and service.

AUTOMOTIVE PAINTS

Carmaster

CARMASTER

Primers

Ideally suited to a variety of tasks, the Carmaster primer range is easy to sand and produces good gloss hold-out – there is even a high efficiency wet-on-wet mode.

Clearcoats

Carmaster clearcoats give you the ability to efficiently tackle anything from one panel to a whole vehicle. Each is formulated to deliver good gloss straight off the gun, along with easy polishing with a minimum of effort.

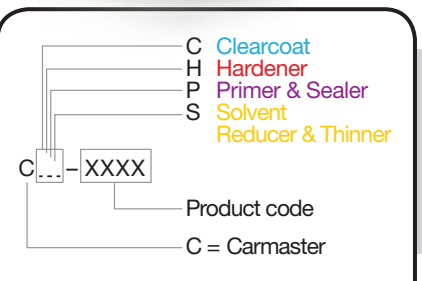

Hardeners & Reducers

The selection of Carmaster hardeners and reducers is fully compatible across virtually the entire range, making it simple to choose the right product for each application and significantly reducing stock holding.

Ease of Use

Modern labelling and logical, straight forward coding ensures that it is easy to recognise individual products with just a glance.
