# TECHNICAL DATA SHEET

## AA-6844

## PROTEC® GLASS PREP

### PRODUCT DESCRIPTION

*Protec* Glass Prep is a special blend of cleaning solvents designed for the final cleaning step for Paraglaze Glass Painting.

### PRODUCT

*Protec* Glass Prep

AA-6844

### GLASS PREPARATION

Follow the *Protec* Paraglaze Glass Painting Technical Data Sheet for full instructions of the preparation required for painting glass.

Apply AA-6844 *Protec* Glass Prep to the glass using one rag to wipe on and a clean lint free rag to wipe off

The air side of the glass should be painted only. Painting the tin side can lead to system failures. The glazier supplying the glass should be able to verify which side is the air/tin side.

### HEALTH AND SAFETY

Refer to Safety Data Sheets (SDS) for full Health and Safety details, as well as product can labels.

This product is for professional use only. The information given in this sheet is for guidance only. Any person using the product without first making further inquiries as to the suitability of the product for the intended purpose does so at his or her own risk and we can accept no liability for the performance of the product or for any loss or damage (other than death or personal injury resulting from our negligence) arising out of such use. The information contained in this sheet is liable to modification from time to time in the light of experience and our policy of continuous product development. Drying times quoted are average times at 25°C/77°F. Film thickness, humidity and shop temperature can all affect drying times.
