

AP-4880 / AP-4990

PROTEC® PLAS STIK PRIMER

PRODUCT DESCRIPTION

Protec Plas Stik Primer is a universal ready for use adhesion promoting primer for plastic substrates. It is suitable for use on a wide variety of plastic composites used on modern motor vehicles.

Protec Plas Stik Primer is available in the traditional clear version as well as a grey version that is more easily seen when applied and can be used as a groundcoat.

It should be noted that 100% PP plastic is not used on exterior plastic car parts.

PRODUCTS

<i>Protec Plas Stik Primer Grey</i>	AP-4880
<i>Protec Plas Stik Primer</i>	AP-4990
<i>Protec Plastics Cleaner</i>	AA-6800
<i>Protec Auto Plastics Pre-Clean RFU</i>	AA-6788

SUBSTRATES & PREPARATION

Protec Plas Stik Primer can be applied over:

- Genuine Automotive OEM plastic parts
- Modified Polypropylene (PP) - most common exterior plastic car parts are made from modified PP

Protec Plas Stik Primer can NOT be applied over:

- PVC. *Consult the Protec Technical Team before applying any Protec products on PVC curtains*
- *Plastics such as 100% PP, HDPE and LDPE should not be coated. The ever increasing variety of plastic compositions make repair process recommendations very difficult, therefore, all new plastics must be tested prior to topcoating*

CLEANING

Thoroughly clean and sand the surface to be painted with AA-6788 *Protec Auto Plastics Pre-Clean RFU* using a medium grade STARTLINE® abrasive pad. Rinse with clean water and dry.

Re-clean the surface using a clean cloth dampened with AA-6800 *Protec Plastics Cleaner*, and a clean dry cloth to remove.

MIXING RATIO

Not applicable - this product is Ready For Use.

Gently shake can before use.

POTLIFE

N/A.

SPRAY VISCOSITY

10 - 12 seconds (DIN 4) at 25°C.

SPRAYGUN SETTINGS (*GRAVITY*)

- | | |
|-----------------------|--|
| SETUP | 1.3 - 1.4 mm |
| SPRAY PRESSURE | <ul style="list-style-type: none">• HVLP / RP: 1.4 - 1.6 bar• CONVENTIONAL: 1.5 - 2.0 bar |

APPLICATION

Apply one even medium coat.

TOTAL DRY FILM BUILD 10 - 15 µm

TOPCOAT / RECOAT

TIME: 20 minutes at 25°C

Protec Plas Stik Primer may be topcoated with the following, or as advised by the *Protec* Technical Team

- Two pack polyurethane topcoats such as Paraglaze Gloss and Carmaster DG
